

**Vanadium (and its compounds) for 2017**

| Required Information          |   |
|-------------------------------|---|
| Substance Name and CAS Number | Vanadium (except an alloy) and its Compounds<br>CAS # 7440-62-2 |
| Use                           | >100 to 1,000 Tonnes  |
| Created                       | 0   |
| Contained in Product          | >1 to 10 Tonnes   |
| Released (All Media)          | 0.0141 Tonnes   |
| Transferred for Disposal      | 0   |
| Transferred for Recycling     | 0   |

**Aluminum (Fume or Dust) for 2017**

| Required Information          |   |
|-------------------------------|---|
| Substance Name and CAS Number | Aluminum (Fume or Dust) CAS # 7429-90-5 |
| Use                           | >100 to 1,000 Tonnes                    |
| Created                       | 0                                       |
| Contained in Product          | 0                                       |
| Released (All Media)          | 0.0141 Tonnes                           |
| Transferred for Disposal      | 0                                       |
| Transferred for Recycling     | 0                                       |

**Molybdenum Trioxide for 2017**

| Required Information          |   |
|-------------------------------|---|
| Substance Name and CAS Number | Molybdenum (except an alloy) and its Compounds<br>CAS # 7439-98-7 |
| Use                           | >1,000 to 10,000 Tonnes   |
| Created                       | 0   |
| Contained in Product          | >10 to 100 Tonnes   |
| Released (All Media)          | 0.7962 Tonnes   |
| Transferred for Disposal      | 0   |
| Transferred for Recycling     | 0   |
